- United Kingdom
- Switzerland
- EU
- Eastern Europe
- Latin America

“

Over the past 18 months, our experience of using DataArt to help flex our in-house development resources has been extremely positive. We have found the quality and commitment of their developers to be high and DataArt's account management has been extremely professional and responsive. I would unreservedly recommend them as an outsourcing organization.

Paul Clarke, CTO
Ocado

”

“

Our business evolves at an extraordinary rate which means as an IT team we have to respond quickly to meet the changing needs of the organization. We need a technology partner who brings the requisite industry experience and technology expertise to help us achieve this. DataArt's extensive domain knowledge, tested team and proven ability to deliver in tight timelines made them the ideal partner for Coller.

Howard Lask, CTO
Coller Capital

”

“

We are extremely pleased with the development service provided by DataArt for our multiple consumer-facing websites. Our project was delivered on time with a great combination of creativity, engineering professionalism, cutting-edge technological choices, and, above all, open and instantaneous communication. We are looking forward to doing more work with DataArt.

Patrice Peyret, CEO
Banking Up

“

Our aim when we began working with DataArt was to make using the Skyscanner white label product as easy and as simple as possible for customers. Skyscanner's intuitive flight content offers a simple, unbiased way to search, compare and book flights all over the world; but bringing that to users on other sites needed to be improved. Thanks to our partnership with DataArt we've been able to achieve this goal and Skyscanner is powering travel search sites all over the world.

”

Filip Filipov, Head of B2B,
Skyscanner
