

DataArt Ranks in the Inc. 5000 List of the Fastest-Growing Private U.S. Companies for the Ninth Consecutive Year

August 16, 2018

DataArt, the global technology consultancy that designs, develops and supports unique technology solutions, has announced today that it was selected to the annual Inc. 5000 List of the fastest-growing private U.S. companies for the ninth year in a row, which puts it in the elite group of companies that has included Microsoft, Timberland, Vizio, Intuit, Chobani, Oracle, and Zappos.com.

DataArt's consistently impressive ranking is a testament to the company's long-term commitment to excellence in developing engineering solutions and client project delivery.

Over the last three years, DataArt has opened five new global locations, won over 100 new clients and hired 900 specialists, seeing revenue growth of 127%.

“The ninth consecutive inclusion in the Inc 5000 is a reason to celebrate,” said Alexei Miller, Managing Director at DataArt, “We credit this success to the loyalty of our clients, the growing complexity and scale of our projects, and the dedication of our teams that serve over 350 clients, delivering winning solutions.”

“If your company is on the Inc. 5000, it’s unparalleled recognition of your years of hard work and sacrifice,” says Inc. editor in chief James Ledbetter. “The lines of business may come and go, or come and stay. What doesn’t change is the way entrepreneurs create and accelerate the forces that shape our lives.”
