We Help You Navigate the Complex Landscape of Digital Change

In an era of relentless digital change, organizations face a dynamic environment filled with challenges and opportunities.

To stay ahead, you need technology and strategies that evolve swiftly. This means transforming obstacles into competitive advantages with a clear vision, scalable solutions, and a culture of accountability.

Digital Transformation

A staggering 70% of digital transformation projects fail. Source: [Forbes](#)

Accelerated Pace of Change

58% of business leaders are worried about the pace of change. Source: [BT](#)

Maximizing IT ROI

67% of CFOs believe their digital spending investments are underperforming against expected outcomes. Source: [Gartner](#)

Increasing Customer Expectations

Intentional and strategic user experience has the potential to raise conversion rates by as much as 400%. Source: [Forrester](#)

Data Management & Security

The global average cost of a data breach in 2024 is USD 4.88M—a 10% increase over last year and the highest total ever. Source: [IBM](#)

Talent Acquisition & Upskilling

By 2026, 90% of organizations will face losses due to the global IT skills crisis, amounting to some \$5.5 trillion. Source: [IDC](#)

DataArt is your partner for progress in the digital age.

Leveraging our global scale, dedicated industry practices, innovation labs, and artful approach to digital services, we help you design and engineer data-driven, cloud-native solutions with speed, quality, and precision.

Serving 400+ Clients as a Trusted Technology Partner

We prioritize long-term partnerships over short-term gain. That's why our top 20 clients have been with DataArt for 7+ years on average.

What Our Clients Say About DataArt

//

DataArt's understanding of our business goals coupled with expert software implementation makes them an invaluable technology partner for Betfair.

Matt Young

Distributed Development Director

//

We needed a trusted partner who could share our pioneering vision, meet our high standards and understand our business. DataArt provided us with a motivated and expert team of top engineering talent that has consistently delivered at every project stage.

Mark Richardson

CEO, Ocado Intelligent Automation

//

DataArt has done a great job! Their high level of engagement, ownership, and commitment to digital excellence was key to delivering a user-friendly digital application that generated results above our expectations and keeps delighting its users.

Markus Staas

Head of Digital Product Management,
Invesco EMEA

//

I would definitely recommend DataArt as a technology partner. They care deeply about the business that I'm in. I think they were excellent partners and truly an extension of our organization.

Justin Baker

Senior Director of Engineering

What We Do

As your trusted technology partner, we help you continuously innovate to tackle whatever challenges lie ahead. Drawing on our advanced data expertise and AI capabilities, we build, modernize, and operate solutions that deliver transformative outcomes and measurable impact.

Data & Analytics

- Data Strategy
- Data Platforms
- Data Value Realization
- Data Migration

- Quality Engineering
- Solution Architecture
- UX/UI Design

20+ Labs, 30+ Partnerships, Infinite Potential:
Strengthening every service we deliver, every milestone we achieve

Why DataArt?

We're your **Partners for Progress** in the era of relentless change.

Progressive Vision

Our vision goes beyond execution, enabling **constant progress** as our long-term goal. We combine industry expertise, world-class technical excellence, and solution advisory services to plan and execute complete projects from end to end.

Scale & Capability

Our global delivery platform is the foundation that brings ideas to life. With 135+ tech skillsets, 20+ Labs, and 80+ accelerators, we have the resources, expertise, and innovation to deliver results efficiently, regardless of project scale or complexity.

Partnership Culture

We don't just work for you — we work with you, fully invested in your success. We own outcomes and maintain accountability, innovating rapidly to adapt to changing needs.

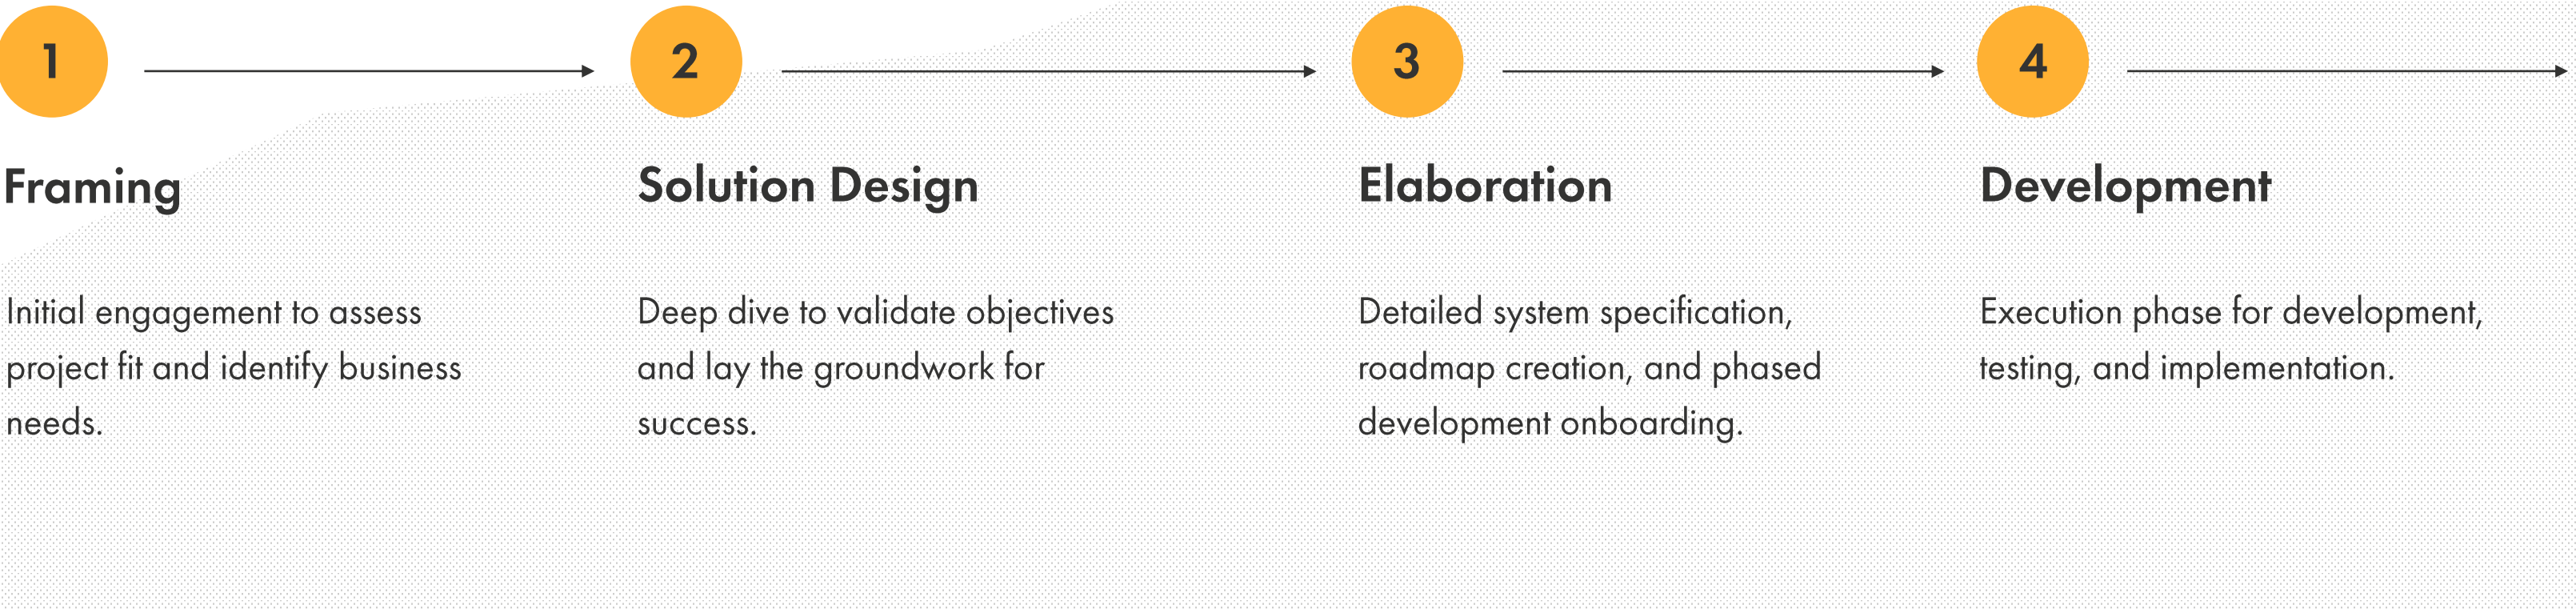

Connect Framework

- Reduce Risk of Project Failure
- Achieve Agile Excellence
- Synergize Development Phases

Realize Your Product Vision with Efficiency, Scale, & Innovation

Tap into DataArt's proprietary methodology for de-risking complex software projects, unlocking agility, and delivering enduring business value.

Expertise & Innovation Hubs

1

Labs are **thriving R&D centers** that allow clients to access niche expertise, vet ideas and roadmaps, and collaborate with top experts.

2

Each of our **20+ Labs** unites experts in a similar field to establish repeatable best practices and service delivery frameworks that add instant value.

3

Labs enable us to **deliver high-quality services** in the face of tight deadlines, changing requirements, and unique development environments.

Labs help clients get results at the cutting edge of emerging tech:
